POPULATION INDEX

VOLUME 41

1975

OFFICE OF POPULATION RESEARCH, PRINCETON
UNIVERSITY; AND POPULATION ASSOCIATION
OF AMERICA, INC.

ACKNOWLEDGEMENT

Many people have helped put together Volume 41 of Population Index. Jane Crecco provided regular and valuable assistance in the Index office. Other individuals made valuable contributions also — consulting on Index policy and practice, translating and abstracting population literature in foreign languages, drafting illustrations, producing typed text or tabular copy, providing bibliographic assistance, or helping in other ways. The Index wishes to thank all those who helped in the preparation of this volume, particularly the following: Dick Boscarino, Bryan Boulier, Adam Broner, Zina Broner, Caroline Browne, Sally Burkman, Diane Coleman, Linda Coleman, Edward di Roma, Eva Frejka, Alberto Hernandez, Allan Hill, Thomas Holzmann, Shigemi Kono, Phyllis Marsteller, Jane Menken, Joan Neider, Nazek Nosseir, Frank Notestein, James Poage, Joseph Potter, Nita Rome, Rose Roth, Judith Rowe, Norman Ryder, Fauzi Sahawneh, Shirley Spranger, Lois Swanson, Mary Templeton, Aykut Toros, James Trussell, Francine van de Walle, Caroline Webb, Charles Westoff, Jay Wilson, and all the staff of the various Princeton University Libraries, without whose cooperation preparation of the Index would not be possible.

NOTES ON SOURCES

The following lists of current bibliographies and of other periodicals comprise those checked through regularly in the preparation of *Population Index*. The endeavor is to see each issue as promptly as possible, though some lags are unavoidable. In the list of periodicals medical and geographical literature are lightly represented, because primary reliance has been placed upon outstanding bibliographies, notably on the *Index Medicus* and *Current Geographical Publications*. Headnotes in the topical sections of the quarterly bibliographies in *Population Index*, Vol. 41, indicate the nature of these and other exclusions, and the bibliographies that provide wider coverage. This list of sources excludes statistical and other official publications that do not contain substantive articles, irregular serial publications, and of course, books and monographs.
